

# GDI Complete Clean 2-STEP FUEL SYSTEM KIT

## SOLID SHEET

*“Protect Your Investment”*

True Brand® GDI Complete Clean 2-Step Fuel System Kit is a hotter, more aggressive formula that cleans and attacks the tenacious hard carbon deposits that build up and choke performance in today's new engine designs. True Brand GDI Complete Clean chemically cleans GDI fuel systems from the gas tank to the exhaust. GDI Complete Clean requires **NO ENGINE TEAR-DOWN** and can be applied by techs of all skill levels!

### True Brand GDI Complete Clean helps:

- Clean and protect against deposits
- Removes water and fights ethanol.
- Removes harmful deposits from induction systems, intake valves, injector tips, and combustion chambers.

### Truth - Application / Directions

- Safe & effective for ALL GDI & PFI gasoline piston engines.
- Induction Cleaner is NOT for rotary or diesel engines.
- See Application Sheet for step-by-step directions.

*For best results, perform service every 6,000 miles (9,600 km).*

### Truth - Features / Benefits

#### **GDI Fuel System Cleaner:**

True Brand GDI Fuel System Cleaner provides hotter, more aggressive 2-stage cleaning for GDI and PFI engines from the gas tank to the exhaust, dissolving gums, varnish and carbon deposits. This formula also lubricates while cleaning and removes water from the fuel system by suspending water into fuel and removing water through the combustion process.

#### **GDI Induction Cleaner:**

True Brand GDI Induction Cleaner disperses a vaporized cleaning solution throughout the air intake system, specifically formulated for those tenacious intake valve deposits left unwashed by GDI engines. This formula's 2-stage cleaning also reaches into the combustion chamber to dissolve injector tip deposits and knock-producing combustion chamber deposits.
